

From Top 20 to the Tennis Club Lawn: Right at Home Grantham's Summer of Celebration

There are some days that remind you exactly why you do the work you do, and Wednesday 5th August was one of them. Under glorious sunshine, Grantham Tennis Club opened its gates to the second annual Dementia Adventure Picnic — an afternoon of warmth, connection, and quiet celebration bringing together clients, families, carers, and friends from across our community.

Dementia Adventure is about reminding people living with dementia, and those who love them, that life outdoors, in good company, doesn't stop mattering. This year's picnic felt less like an event and more like a homecoming, filled with laughter, blankets, sandwiches, and the easy chatter of neighbours who genuinely care for one another.

The day carried extra pride, coming shortly after Right at Home Grantham was named among the Top 20 home care providers nationwide — out of some three thousand — and the very best in the Grantham area. That honour belongs to everyone who showed up: our care team, our clients, and the families who trust us with what matters most.

Claire Parker, a previous client, captured it beautifully: *"It was incredible to connect with the local community again, to sit and share stories, listen to the music, and just feel part of something."*
